

Identifying Common Challenges

Group Exercise

Department
for Environment
Food & Rural Affairs

Funded by
UK Government

Aim

- To allow you to meet other new projects
- To identify potential areas for learning
- To help identify opportunities for coordination and complementary working

Group Exercise

In your groups:

- Briefly introduce your project and where you are working
- Work through the exercise sheet provided
- Record discussion on post its or flip chart paper

Group Exercise

Questions to consider:

- What are the top 3 IWT challenges being addressed?
- What 3 practical actions can you identify for sharing experience?
- What challenges are there to effective monitoring?
- What risks and assumptions may impact on project success?
- What can be done to address these challenges?
- What key sustainability themes have you identified?
